Low crough, as a matter of fact, to change your mind rather quickly, if you have been thinking of buying any other car:

a mong the pleasant surprises the Chrysler has for you are mainly built-in conveniences which are classified as "extra equipment" on most other cars. For example, padded instrument panel, back-up lights and Chrysler's push-button PowerFilte automatic transmission are just a few of the additional conveniences which are standard equipment and, of course, out you nothing extra when you purchase this superh motorcar.

Your Chrysler dealer is in an excellent position to put you into this owest car. You'll find it advantanceous to see him now.

New ways are constantly being sought to make fine paper even herter. The demands of the market run the gamet from bank noses and wedding invitations to tea bags and eigeners paper, each with its exercing specifications. Corton and lines ray, once the basis of tog grade bond, is now giving way to chemical pulpwoods.

The 20th century would be inconceivable without a product known to the trade as 50th paper. Modern education, consigere, finance, all ceientife and cultural schier-mics could not crits without it. But in Canada where the production of newsprine, holds the stage as sur of the industrial show, the role of fine paper has traded to be drusted by the performance of its bill product. gr

> When Mrs. Wilson planned to go shopping, her husband. Tom said: "Meet you at the bank." It was a natural thing to say, for going to the bank is just a part of everyday life,

### Hornets Move in With Family After Being Burned Out

WAUKESHA, Wis. (AP)— Mr. and Mrs. John Melbo burned out a nest of hornets on their front porch. Thursday night, but the project turned out badly for several hundred reasons.

For one thing, the porch caught fire.

For the rest, the hornels, having no other place to go, moved in with the Melbos.

Whatever the weather nothing seems to end the ammine season quite so finally as the return of children to school and the knowledge that for most, vacations have finished for another year.

Except for casual discussions of where to go next year, the relaxed routine of vacations is replaced with more serious thoughts: Savings are checked, and consideration is given as to how they should be used:

Putting your savings to work in sound securities is just good common sense. We don't suggest you'll make a fortune overnight, but it is surprising how quickly even a modest sum regularly invested in sound securities builds up to a sizeable

amount. Whatever the amount of your savings, our services are available to you without obligation. At Ames we think you'll find the kind of people you'll like to do business with: 1: experienced ment decisions most suitable to your personal requirements.

If you would like to discuss patting your savings to work, we will be glad to help you, and would like you to accept this as your invasitants to come into any' of our offices: 1:1: either in person on, by mail.

RARE, MEDIUM, WELL-DONE By GEO. H. CARVER, Sports Editor

Sports editors and sportswriters are an envied lot—to uninitiated. They have the greatest jobs in the world —as as most is concerned.

They sixell past licket-takers in stadia and ball parks with a smile and a nod, fingiling what usually is the last two dismes and a nicket until payday. They occupy the seats of the mightly in the press box where they one view pre-occidage from an aerial perch that carries none of the har-ards of the pow-packed state.

They mingle with the famous—and infamous—in the swall-shift-friend almosphere of dressing rosens. The sold and manager gives them all the "basile days" of things and present and fatire. In their little negatine they carry shown in the state of the same and fatire. The their little negations as to show hit the first beauer as in the fatire. Lineary to the later of the Sunday socks were by Racket Richard.

They get ducats to the world series games, wherever they

But there is one thing, or most times they come in pairs, cannot explain. At least if he lives in the "sticks." The sports mill-wrights may be different.

And please mark, learn and inwardly digest, all you po-tential telephone uners. The "thing" mentioned is a Grey Cup ticket, singly, in pairs, or by the gross.

Another recalled the balmy days in the Maritimes when we played block quarter with the rellow-and-block "U-P;-Dee, Dubbosson" rarger squad back in the early twenties. At that time we did our playsin-tolin; English rarger style, All that time we did our playsin-tolin; English rarger style, all Richeb McCor, Jimmy Hunter et al of the red-and-black journed Hallitax Wanderers, a stitler; auti-callegists

As far as Grey Cup tickets in this department are con-sed, like the Irisher faild when he saw his first giraffe, "It's am lie. They's no sich thing."

So please reed people, we have no 'Grey Cup tickets

We, like the maderity of teuthal addits in these parts—
and many others, will do our "faming" from the fifty—rate
line in the living room stadium providing the television
set is in weaking order.

### PLAYDOWN CHATTER

The Cementmen, last season's provincial champs, took a parrow 4-3 decision here last week and a victory inconcrow would bring home the bacon again. But after that inthirframe-rally the Toronto crew came up with last week, things may be plenty rought. The Alicraft nine will be flying high in an effort to force a third game so Phil Loti's boys had better but at the?

Lee Cuihane's gallant little prewee team, Booth's Radio-TV's, will also head west on Saturday for the second game of their OASA semi-final series with North York.

Belleville leads this series by virtue of their 17-9 win last turday and a victory tomorrow would find them in the finals sinst either Simcoe or Lucknow.

The second game of the series is slated for Belleville next Saturday with the third fixture, If it is necessary, also here or

Art Wright's boys came up with fine ball to iweep their series over Oshawa but let's hope the two-weeks' layoff has done nothing to hinder the cause.

While saving is something you must do youneif, we can offer a few helpful suggestions. First, and probably the easiest method if you are strong-minded enough, is to simply open a special savings account and use it repularly. Or, on a smaller scale, you re fifty-cent pieces, dimes or even ies. Or, you can use a piggy-bank as a pennies. Or, you can use a pagy—ann as a handy secumulation point for all loose change. Hour after hour day after day ... GMC trucks slug it out on Canada's biggest construction job

Building a seaway is more than constructing locks and dams. It's building roads—moving towns—relocating railroads. At this moment Sir Robert McAlpine and Sons (Canada) Limited are digging into the railroad job : : : and GMC trucks are helping them to do it.

Building a seaway means long hours on the run, hauling 12 on loads on the railroad-building job—and deeping at it until the schedule is met. It means crushing loads from heavy-handed shovels and frame-wrenching truck torture on roads that aren't roads at all.

Building a seaway means the toughest test yet for any truck::: but these big GMC's have proved they can take it—are still proving that they're the suggedest, toughest, go-gettingest trucks on the job. Proveit for yourself on your job. There's a GMC truck made to match it!

# RUGBY TACTICS BALKED BY SCIENCE

RUGHY TACTICS BAINED BY SCIENCE
The 'march of science is threatening with extinction one of the most devastating tactics in Canadian football. The meanest manouver is a short joiling numbed delivered than a 17-inch collar. Fired by mightly behemoths at close range in screened scirmanges against an opposing lineman or ball carrier, these face fastleners instill, switch of the collar of the co

lines to shreds.

If free punching linemen continue to meet the ball carrier with facial blows, their fists will bounce off the unyleiding plastic masks with a handful of broken fingers. One of rugby's most effective tactics appears to be in jeopardy. Or maybe science will prove it in impartiality by providing the frustrated tackiers with plastic knuckle dusters.

providing the frustrated accuser was present and unders.

An anager will generally refuse to let his charge fige flower his weight class. Certainly he won't let him fight more than one opponent at the same time. Parents owe at least as much common sense and consideration for their offspring.

Peasiby the most effective course to nip the trouble in the bud would be to issue a prompt warning to the charge if the action is repeated.

RARE, MEDIUM, WELL-DONE By GEO. H. CARVER, Sports Editor

Now that the hockey "mob" knows that the Belleville McParlands have secured the services of Bep Guidolin as play-ing cosch for the coming season, some secret ambitions have come to light.

For Instance, Wyman Col-lins, Cornwall Standard Free-halder sports editor, wrote the other day: "Ray Miron, Cornwall Chevrolet general man-ager, was saying how, sec-retly, he hoped league memrtly, he heped reagne measure Betteville MeFarlands resuldn't go through 'with heir plans for hiring Ben Guidelin as coach for the coming season.

this department noted the other day, the league "reunion," in the Queen's Hotel a few nights back, was non-pro-or information regarding the various entries' hopes and about the securing of coaches, players, etc.

That was in the year 1812-5, Guidelink's last year in the majors, and yes could fell at a giance that even then the player whe was finishing up bits three years as a Chi-cage Black Hawk was perfectly capable in the role of one who carns his livelined. . . his bread and butter in the grid and were that, is, pretensional backer,"

Collins says Guidelin looked for all the world like the man to score 278 points among the NHL'sers . . . with his dashing demeanor, driving play and his always-ready tac-tics on the level.

"It was his fire and fight with anyone that more than ught about his trades to two other NHL clubs than the one h which he broke in back in 1942-43."

With Osbawa as a much sought-after junior, Guidelin made the pro jump with the Bosten Bruins and though only 17 years of age made his impression a favorable one with 22 points his first rall separe.

Typical of Guidolin, his first year with the lowly Chicago Black Hawks was his best from a total points production, and he scored 31; the while his old teammats on the potent De-troit club were winning the Stantey Cup.

As Mr. Collins says: "It was fitting irony that Bep should have his greatest year the season Detroit thought he was through; for that, down through the years has come to be expected of this unexpected guy."

"He might wreck you or he might just score on yez, but at least he'll show you fight. For Rep is one guy who hat been better, as the guy says, by far than the sthirtle who never was."

City railbirds will get their first glimpes of Bop next unday when, it is expected, the first practice of the new seen will be held. Manager Drury Denyes stated teday at between 26 and 25 players will be on hand for the ini-l writhlie-chaser, including the new pack-chasers mem-ned to date, and more.

It seems one of them sprung a leak and another had lung able and plugged tighter than a frog's throat.

That means that the planned inaugural workest of the Belleville McParlands, subscision for Mondey night in peal-paned. It is besed repairs will be effected so that Couch Bey Guidelin and his senior "A" hopefuls can take to the for on Threskay evening.
